

ALPHA EXAMINATIONS, ACCRA

ANNUAL SCHEME OF LEARNING FOR 2026/2027 ACADEMIC YEAR FOR BASIC ONE TO THREE

(COMPUTING AND FRENCH)

Date for Submission of Enrolment: September – December, 2026

Date for First Term Examination will be scheduled on the Exams Timetable

Collection of Materials: A Week or Two to the Examination.

NB: You may call to request for this scheme prepared lessons notes.

NB: Upper Class questions will cover questions in the Lower - Class Syllabus for the term.

For Any Enquiry, Please Call:

024 646 4126

020 788 8342

COMPUTING SCHEME FOR BASIC ONE – TERM ONE (1)

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Identify a computer as a machine	Teacher shows a computer and explains	Real computer, chart	Oral questioning (naming computer)
2	Introduction to Computing	Name basic parts (monitor, keyboard, mouse)	Learners identify parts	Flashcards, real devices	Observation checklist
3	Introduction to Computing	Match parts to pictures	Picture matching activity	Worksheets, flashcards	Practical exercise (matching correctly)
4	Introduction to Computing	Show how parts connect	Teacher demonstration	Computer set, cables	Observation (correct connection)
5	Sources of Information	Collect simple items (books, pencils)	Group counting activity	Classroom items	Oral questioning (naming items)
6	Sources of Information	Record items in exercise book	Guided writing	Exercise books, pencils	Written work (recording counts)
7	Sources of Information	Talk about types of data (numbers, words)	Storytelling, examples	Charts, pictures	Oral questioning (distinguishing data types)
8	Technology in Communication	Identify traditional tools (drums, gong gong)	Drawing and colouring	Drawing sheets, crayons	Practical exercise (drawing tools)
9	Technology in Communication	Identify modern tools (radio, phone, TV)	Teacher shows devices	Real devices, pictures	Oral questioning
10	Technology in Communication	Talk about why people use communication tools	Group discussion	Posters, charts	Class discussion (explaining uses)
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC ONE – TERM TWO (2)

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Identify keyboard as input	Practice pressing keys	Keyboard	Observation (pressing correct keys)
2	Introduction to Computing	Identify mouse as input	Practice clicking	Mouse	Practical exercise (clicking icons)
3	Introduction to Computing	Identify monitor as output	Show monitor displaying pictures	Monitor	Oral questioning (naming monitor)
4	Introduction to Computing	Identify speakers as output	Play simple sounds	Speakers	Oral questioning (identifying sound source)
5	Sources of Information	Collect classroom data	Group counting	Classroom items	Practical exercise (recording counts)
6	Sources of Information	Record data in tally marks	Teacher-guided activity	Chart, chalkboard	Written work (correct tally marks)
7	Sources of Information	Talk about differences between pictures and words	Flashcards	Flashcards	Oral questioning
8	Technology in Communication	Identify phone and radio	Teacher shows devices	Real phone, radio	Oral questioning
9	Technology in Communication	Talk about how people use phones	Role-play (pretend calling)	Toy phones	Observation checklist
10	Technology in Communication	Identify safe use of tools	Songs, posters	Posters, songs	Oral questioning (explaining safety)
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC ONE – TERM THREE (3)

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Draw computer parts	Drawing activity	Drawing sheets, crayons	Practical exercise (drawing correctly)
2	Introduction to Computing	Colour computer parts	Colouring worksheets	Worksheets, crayons	Observation checklist
3	Introduction to Computing	Talk about storage (box/bag analogy)	Storytelling	Real bags, boxes	Oral questioning
4	Sources of Information	Collect data by observation	Group activity (counting pupils)	Classroom items	Practical exercise
5	Sources of Information	Present data using pictures	Drawing pictograms	Drawing sheets	Observation checklist
6	Sources of Information	Talk about why information is useful	Storytelling	Charts, examples	Oral questioning
7	Technology in Communication	Identify polite communication (greetings)	Role-play	Role cards	Observation checklist
8	Technology in Communication	Talk about safe communication (not talking to strangers)	Teacher-led discussion	Posters	Oral questioning
9	Technology in Communication	Compare old vs new tools	Group discussion	Pictures of drums/phones	Class discussion
10	Technology in Communication	Use communication tools in role-play	Pretend calling, messaging	Toy phones, charts	Practical exercise
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC TWO – TERM 1

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Identify left mouse button	Teacher demonstrates, learners practice clicking	Mouse, computer	Observation checklist
2	Introduction to Computing	Identify right mouse button	Teacher shows, learners practice	Mouse, computer	Oral questioning
3	Introduction to Computing	Use mouse for single click	Practice opening icons	Computer, mouse	Practical exercise
4	Introduction to Computing	Use mouse for double click	Practice opening folders	Computer, mouse	Practical exercise
5	Sources of Information	Identify classroom sources (books, charts)	Group activity	Books, charts	Oral questioning
6	Sources of Information	Identify community sources (library, radio)	Teacher-led discussion	Pictures, posters	Class discussion
7	Sources of Information	Identify digital sources (TV, phone)	Teacher shows devices	Real devices	Observation checklist
8	Technology in Communication	Identify communication gadgets (phone, radio)	Group naming	Real devices, pictures	Oral questioning
9	Technology in Communication	Demonstrate sending information (pretend call)	Role-play	Toy phones	Observation checklist
10	Technology in Communication	Demonstrate receiving information (listening to radio)	Listening activity	Radio	Oral questioning
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC TWO – TERM 2

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Practice dragging with mouse	Teacher demonstrates drag-and-drop	Computer, mouse	Practical exercise
2	Introduction to Computing	Practice selecting text with mouse	Guided activity	Computer, mouse	Observation checklist
3	Introduction to Computing	Practice opening and closing windows	Teacher demonstration	Computer	Practical exercise
4	Sources of Information	Identify school sources (teacher, notice board)	Group discussion	Posters, charts	Oral questioning
5	Sources of Information	Identify home sources (parents, TV)	Storytelling	Pictures	Oral questioning
6	Sources of Information	Identify community sources (chief, gong gong)	Role-play	Posters, drawings	Observation checklist
7	Technology in Communication	Demonstrate sending information (writing note)	Group activity	Paper, pencils	Practical exercise
8	Technology in Communication	Demonstrate receiving information (reading note)	Group activity	Paper, pencils	Written work
9	Technology in Communication	Practice polite communication	Role-play greetings	Role cards	Observation checklist
10	Technology in Communication	Practice safe communication	Teacher-led discussion	Posters	Oral questioning
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC TWO – TERM 3

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Practice mouse double-click consistently	Learners open folders	Computer, mouse	Practical exercise
2	Introduction to Computing	Practice mouse right-click menu	Teacher demonstration	Computer, mouse	Observation checklist
3	Introduction to Computing	Practice mouse drag-and-drop	Learners move icons	Computer, mouse	Practical exercise
4	Sources of Information	Collect information from environment	Group activity	Classroom items	Practical exercise
5	Sources of Information	Record information in exercise book	Guided writing	Exercise books, pencils	Written work
6	Sources of Information	Present information orally	Group presentations	Classroom items	Oral questioning
7	Technology in Communication	Demonstrate sending information (pretend SMS)	Role-play	Toy phones	Observation checklist
8	Technology in Communication	Demonstrate receiving information (pretend SMS)	Role-play	Toy phones	Practical exercise
9	Technology in Communication	Compare old vs new communication tools	Group discussion	Pictures of drums/phones	Class discussion
10	Technology in Communication	Apply communication tools in role-play	Pretend calling, messaging	Toy phones, posters	Practical exercise
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC THREE – TERM 1

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Identify monitor and its function	Teacher shows monitor displaying text/pictures	Monitor, chart	Oral questioning
2	Introduction to Computing	Identify keyboard and its function	Learners press keys to type letters	Keyboard, computer	Observation checklist
3	Introduction to Computing	Identify mouse and its function	Practice clicking and moving cursor	Mouse, computer	Practical exercise
4	Introduction to Computing	Identify system unit and its function	Teacher explains storage and processing	System unit	Oral questioning
5	Introduction to Computing	Identify speakers and their function	Play sounds/music	Speakers	Oral questioning
6	Introduction to Computing	Identify printer and its function	Teacher shows printed paper	Printer	Practical exercise
7	Sources of Information	Identify classroom sources (books, charts)	Group activity	Books, charts	Oral questioning
8	Sources of Information	Identify community sources (library, radio)	Teacher-led discussion	Posters, pictures	Class discussion
9	Technology in Communication	Identify communication gadgets (phone, radio, TV)	Group naming	Real devices, pictures	Oral questioning
10	Technology in Communication	Explain why communication tools are important	Group discussion	Posters, charts	Class discussion
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC THREE – TERM 2

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Explain how monitor works	Teacher shows monitor displaying images	Monitor	Oral questioning
2	Introduction to Computing	Explain how keyboard works	Learners type simple words	Keyboard, computer	Practical exercise
3	Introduction to Computing	Explain how mouse works	Learners move cursor and click	Mouse, computer	Observation checklist
4	Introduction to Computing	Explain how system unit works	Teacher explains processing	System unit	Oral questioning
5	Sources of Information	Demonstrate sending information (writing note)	Group activity	Paper, pencils	Practical exercise
6	Sources of Information	Demonstrate sharing information (reading note aloud)	Group activity	Paper, pencils	Oral questioning
7	Sources of Information	Demonstrate sharing information through pictures	Drawing activity	Drawing sheets, crayons	Observation checklist
8	Technology in Communication	Demonstrate sending information (pretend SMS)	Role-play	Toy phones	Practical exercise
9	Technology in Communication	Demonstrate receiving information (pretend SMS)	Role-play	Toy phones	Observation checklist
10	Technology in Communication	Demonstrate importance of communication (sharing news)	Group discussion	Posters	Class discussion
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

COMPUTING SCHEME FOR BASIC THREE – TERM 3

Week	Strand	Indicator	Activities	Resources	Assessment
1	Introduction to Computing	Identify how computer parts work together	Teacher demonstration	Computer set	Oral questioning
2	Introduction to Computing	Demonstrate simple typing and printing	Learners type and print	Keyboard, printer	Practical exercise
3	Introduction to Computing	Demonstrate mouse use in drawing	Learners draw shapes	Mouse, Paint software	Observation checklist
4	Sources of Information	Demonstrate sending information orally	Group presentations	Classroom items	Oral questioning
5	Sources of Information	Demonstrate sharing information in groups	Group activity	Paper, pencils	Observation checklist
6	Sources of Information	Demonstrate importance of sharing information	Teacher-led discussion	Posters	Class discussion
7	Technology in Communication	Identify importance of communication tools	Group discussion	Pictures, posters	Oral questioning
8	Technology in Communication	Explain importance of modern tools (phone, TV, radio)	Teacher-led discussion	Real devices	Oral questioning
9	Technology in Communication	Compare traditional vs modern tools	Group activity	Pictures of drums/phones	Class discussion
10	Technology in Communication	Apply communication tools in role-play	Pretend calling, messaging	Toy phones, posters	Practical exercise
11 12	REVISION / EXAMINATION				

Footnote for Teachers:

1. The **recommended textbook** for delivering these lessons is *Victory Computing for Primary Schools*.
2. Teachers should use **relevant online materials**, including **videos** and **pictures**, to enrich lessons and provide visual support.

BASIC ONE -FRENCH LANGUAGE-TERM 1

WEEK	STRANDS
1	Les alphabets français
2	Les alphabets français
3	Saluer et prendre congé
4	Saluer et prendre congé
5	Le son <<a>>
6	Les jours de la semaine
7	Les jours de la semaine
8	Le verbe <<être>> au présent de l'indicatif
9	Le son <<o>>
10	Mon école : les objets de la classe
11	Mon école : les objets de la classe
12	Le son <<i>>

13	Examinations
14	Examinations - Vacations

BASIC 3

ALPHA EXAMINATIONS LTD

2026/2027 ACADEMIC SCHEME OF LEARNING

1. PREAMBULE

The Lower Primary French Programme introduces pupils to French as a first foreign language. At this level, learning is centered on listening, speaking, and basic interaction through songs, games, stories, and role-play. The goal is to help pupils develop curiosity about other cultures, build confidence in oral communication, and lay a strong foundation for further language learning in Upper Primary and beyond. French is taught as a tool for communication, friendship, and cultural exchange within Ghana, ECOWAS, and the wider world.

Le programme de français au primaire inférieur initie les élèves au français comme première langue étrangère. À ce niveau, l'apprentissage est centré sur l'écoute, l'expression orale et l'interaction de base à travers des chansons, des jeux, des histoires et des jeux de rôle. L'objectif est de susciter la curiosité des élèves pour d'autres cultures, de renforcer leur confiance à l'oral et de poser les bases solides pour la suite du parcours au primaire supérieur. Le français est enseigné comme un outil de communication, d'amitié et d'échange culturel au Ghana, dans la CEDEAO et dans le monde.

2. PHILOSOPHY

Philosophy of Teaching French at Lower Primary

We believe that children learn languages best through joy, play, and real-life use.

Therefore, the teaching of French at this level is guided by the following principles:

1. Communication First: Priority is given to understanding and speaking. Reading and writing follow gradually.
2. Child-Centered Learning: Lessons use the child's world — family, school, food, play — as starting points.
3. Cultural Appreciation: French opens doors to Ghana's Francophone neighbors and builds respect for diversity.
4. Foundation for the Future: Early exposure builds pronunciation, confidence, and love for languages that supports learning in JHS and SHS.
5. Integration: French is linked to other subjects and Ghanaian values of unity, respect, and hospitality.

French is not taught to produce perfect grammar at P3. It is taught to produce confident, curious children who can say “Bonjour, comment ça va?” and mean it.

Philosophie de l'enseignement du français au primaire inférieur

Nous croyons que les enfants apprennent le mieux les langues à travers la joie, le jeu et l'usage concret.

Ainsi, l'enseignement du français à ce niveau repose sur les principes suivants :

1. La communication d'abord : La priorité est donnée à la compréhension et à l'expression orale. La lecture et l'écriture viennent progressivement.
2. L'enfant au centre : Les leçons partent de l'univers de l'enfant : la famille, l'école, la nourriture, le jeu.
3. L'ouverture culturelle : Le français ouvre sur les pays francophones voisins du Ghana et développe le respect de la diversité.
4. Des bases pour l'avenir : Une initiation précoce développe la prononciation, la confiance et le goût des langues pour le collège et le lycée.
5. L'intégration : Le français est lié aux autres matières et aux valeurs ghanéennes d'unité, de respect et d'hospitalité.

Au primaire inférieur, on n'enseigne pas le français pour avoir une grammaire parfaite. On l'enseigne pour former des enfants confiants et curieux, capables de dire « Bonjour, comment ça va ? » avec le cœur.
